

## **Research Scientist - Biochemistry**

Protego Biopharma is a fast-growing company focusing on R&D of small molecule therapeutics targeting protein misfolding diseases. We are seeking a highly motivated and goal-oriented biochemist/biophysicist to join our team. This role requires significant hands-on experience in protein generation, protein biochemistry and biophysics, and bioassay development. Ability to think out of the box, work in a fast-paced environment, striving for excellence, high aptitude for learning, trouble shooting, team work, and communication skills are essential. This position will be located in San Diego, California.

### **Key responsibilities:**

1. Independently design and conduct hands-on experiments to achieve project goals and timeline.
2. Stay informed about related scientific literature and development.
3. Maintain detailed and accurate records of experiments performed.
4. Actively engage in collaboration with our academic and industry collaborators.
5. Communicate clearly to stakeholders through oral and written communications, participate in scientific and technical meetings, and provide expert recommendations.
6. Actively participate in scientific and technical innovations in the company.

### **Requirements**

A PhD in Biological Sciences and closely related fields with 0-3 years' experience.

- Self-motivated, strong work ethics, passion for advancing science and medicine.
- Deep understanding and prior experience in protein production, protein biochemical and biophysical analysis, and assay development is required.
- Extensive hands-on experience with modern biotechnology and techniques related to protein characterization and protein engineering, as demonstrated with strong publication or other records, is required.
- Detail-oriented, strong organizational skills, eager to learn and continuously improve, and a dedication to quality and integrity.
- Effective and professional communication skills, written and oral, and aptitude for problem solving and technical writing.
- Ability to work independently and as a team player in a fast-paced team environment, meet deadlines and company objectives.

The level of this position will be based on the final candidate's qualifications.

Please note this job description is not designed to cover or contain a comprehensive listing of activities, duties or responsibilities that are required of the employee for this job. Duties, responsibilities and activities may change at any time with or without notice.

### **Policy**

Protego is committed to creating a diverse environment and is proud to be an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, gender, gender identity, national origin, genetics, disability, age, sexual orientation or veteran status.

## **Application Procedure**

For submission, please send your resume and cover letter to [info@protegiopharma.com](mailto:info@protegiopharma.com).
